-Restore plc press release-

Restore plc progresses digital strategy with acquisition of Capture All Limited.

Restore plc has acquired Capture All Limited, a successful digitisation company based in Falkirk, Scotland. The acquisition continues the fast expansion of Restore's Digital business and strengthens its position as the UK's leading digitisation company, whilst also increasing the Group's presence in Scotland. Capture All works across public and private sectors and has experience of delivering complex projects including work for NHS Scotland and the Scottish Fire and Rescue Service.

Restore Digital is the UK's leading digital service business, providing business process outsourcing, digital mailrooms, document scanning, cloud hosted data storage, information management systems and digital transformation consultancy.

"The acquisition of Capture All is further investment in the future of Restore Digital", comments Mark Horrocks, Managing Director of Restore Digital. "During 2021 we have doubled revenues to £46m per year and substantially enhanced our products and services for customers and with Capture All we enhance our reach and capability further".

"I am delighted with this acquisition", said Charles Bligh, CEO of Restore plc, "The Restore Group now delivers services from nine sites across Scotland, with over 130 colleagues. We are proud to continue to invest in our Scottish business, and to develop our highly trusted services for the local public and private sectors, as well as expanding the critical role of Scotland in delivering our services to the wider UK market".
