NEAR-TERM AND NET-ZERO TARGET VALIDATION REPORT

Restore PLC

23 May 2025

INTRODUCTION

This report presents the results and recommendations of the submitted targets assessed against the SBTi Net-Zero Criteria and guidance. This includes an overview of the GHG emissions sources and inventory, target setting methodologies and ambition, emissions included in the target boundary, and company-specific feedback from the validation process, if applicable. A detailed overview of the criteria is provided in the appendix. The approved target language, which will be listed on the SBTi website and should be used in all company communications, is as follows:

Overall Net-Zero Target: Restore PLC commits to reach net-zero greenhouse gas emissions across the value chain by 2050.

Near-Term Targets: Restore PLC commits to reduce absolute scope 1 and 2 GHG emissions 50% by 2030 from a 2023 base year. Restore PLC also commits to reduce absolute scope 3 GHG emissions 42% within the same timeframe. Restore PLC further commits that 70% of its suppliers by emissions covering purchased goods and services, will have science-based targets by 2029.

Long-Term Targets: Restore PLC commits to reduce absolute scope 1 and 2 GHG emissions 90% by 2035 from a 2023 base year. Restore PLC also commits to reduce absolute scope 3 GHG emissions 90% by 2050 from a 2023 base year.

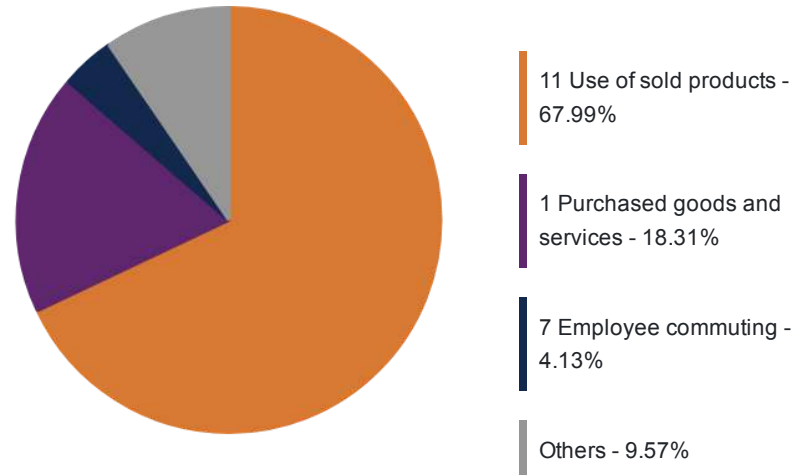

GHG INVENTORY OVERVIEW

Restore PLC has submitted one GHG inventory for review by SBTi's Target Validation Team. In the calendar year of 2023 the company has reported total of 89,690 GHG emissions (tCO₂e) in the full minimum boundary (scopes 1, 2 and 3). Restore PLC has additionally chosen to report emissions outside the minimum boundary. Restore PLC has reported no emissions from the combustion, processing and distribution phase of bioenergy and the land use emissions and removals, associated with bioenergy feedstocks. The full breakdown of Restore PLC's GHG inventory, including optional emissions, is provided below.

TOTAL GHG EMISSIONS (tCO₂e) 2023

SCOPE 3 BREAKDOWN BY CATEGORY

2023 GHG INVENTORY

		Minimum boundary emissions	Share of total emissions (location-based scope 2)	Share of total emissions (market-based scope 2)	Percentage excluded from inventory	Outside minimum boundary (optional)	Bioenergy emissions	Bioenergy removals	Biogenic total
SCOPE 1 & 2	Scope 1	7,853.50	8.44%	8.76%	N/A	N/A	N/A	N/A	N/A
	Scope 2 location-based	3,823.90	4.11%	N/A	N/A	N/A	N/A	N/A	N/A
	Scope 2 market-based	419.90	N/A	0.47%	N/A	N/A	N/A	N/A	N/A
SCOPE 3	1. Purchased goods and services	14,909.70	16.02%	16.62%	N/A	N/A	N/A	N/A	N/A
	2. Capital goods	0.00	0.00%	0.00%	N/A	N/A	N/A	N/A	N/A
	3. Fuel- and energy-related activities	3,117.91	3.35%	3.48%	N/A	N/A	N/A	N/A	N/A
	4. Upstream transportation and distribution	2,577.00	2.77%	2.87%	N/A	N/A	N/A	N/A	N/A
	5. Waste generated in operations	411.00	0.44%	0.46%	N/A	N/A	N/A	N/A	N/A
	6. Business travel	556.94	0.60%	0.62%	N/A	35.60	N/A	N/A	N/A
	7. Employee commuting	3,360.70	3.61%	3.75%	N/A	N/A	N/A	N/A	N/A
	8. Upstream leased assets	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
	9. Downstream transportation and distribution	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
	10. Processing of sold products	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
	11. Use of sold products	55,357.78	59.46%	61.72%	N/A	N/A	N/A	N/A	N/A
	12. End-of-life treatment of sold products	1,125.40	1.21%	1.25%	N/A	N/A	N/A	N/A	N/A
	13. Downstream leased assets	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
	14. Franchises	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
	15. Investments	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

OVERVIEW OF SCIENCE-BASED TARGETS

Net-Zero Target

Restore PLC commits to reach net-zero greenhouse gas emissions across the value chain by 2050.

Near-Term Targets

Restore PLC has submitted 3 near-term targets for review by the SBTi. All targets have been assessed against the SBTi's quantitative and qualitative criteria, alongside the Criteria Assessment Indicators. For approval, a company's targets must comply with all applicable requirements. The following is an overview of the approved targets:

Target wording	Public?	Base year	Most recent year	Target year	Type	Target value	Method used
Restore PLC commits to reduce absolute scope 1 and 2 GHG emissions 50% by 2030 from a 2023 base year.	Yes	2023	2023	2030	Absolute	50.0%	Absolute contraction
Restore PLC commits to reduce absolute scope 3 GHG emissions 42% by 2030 from a 2023 base year.	Yes	2023	2023	2030	Absolute	42.0%	Absolute contraction
Restore PLC commits that 70% of its suppliers by emissions covering purchased goods and services, will have science-based targets by 2029.	Yes	2023	2023	2029	Engagement	70.0%	Supplier engagement

OVERVIEW OF SCIENCE-BASED TARGETS

Net-Zero Target

Restore PLC commits to reach net-zero greenhouse gas emissions across the value chain by 2050.

Long-Term Targets

Restore PLC has submitted 2 long-term targets for review by the SBTi. All targets have been assessed against the SBTi's quantitative and qualitative criteria, alongside the Criteria Assessment Indicators. For approval, a company's targets must comply with all applicable requirements. The following is an overview of the approved targets:

Target wording	Public?	Base year	Most recent year	Target year	Type	Target value	Method used
Restore PLC commits to reduce absolute scope 1 and 2 GHG emissions 90% by 2035 from a 2023 base year.	Yes	2023	2023	2035	Absolute	90.0%	Absolute contraction
Restore PLC commits to reduce absolute scope 3 GHG emissions 90% by 2050 from a 2023 base year.	Yes	2023	2023	2050	Absolute	90.0%	Absolute contraction

OVERVIEW OF NEAR-TERM SCIENCE-BASED TARGETS

Restore PLC commits to reduce absolute scope 1 and 2 GHG emissions 50% by 2030 from a 2023 base year.

Public: Yes

Temperature classification: 1.5°C

APPENDIX

Overview of compliance with SBTi Criteria

Communication of your targets

Mandatory reporting of progress against targets

Mandatory target review and target recalculation

OVERVIEW OF COMPLIANCE WITH SBTI CRITERIA

I. GHG EMISSIONS INVENTORY AND TARGET BOUNDARY

1. Organizational boundary	Financial control was chosen by Restore PLC as the consolidation approach, and all subsidiaries have been accounted for in the inventory boundary. Therefore, the target submission complies with Criterion 1.	Compliant
2. Greenhouse gases	All GHGs have been included in the inventory and target boundary. The target submission therefore complies with Criterion 2.	Compliant
3. Scope 1 and Scope 2	Restore PLC has set a long-term target covering 100.00% company-wide scope 1 and 2 emissions. The target submission therefore complies with Criterion 3.	Compliant
4. Requirement to have a scope 3 target	Restore PLC's scope 3 emissions amount to 90.78% in scope 3 base year of 2023, which is more than 40% threshold set by SBTi. Restore PLC has set 2 targets covering scope 3 emissions. Therefore, the target submission complies with Criterion 4. Additionally, Restore PLC has set one long-term target covering scope 3 emissions. Therefore, the target submission complies with Criterion 4.	Compliant
5. Scope 1, 2, and 3 allowable exclusions	The proposed long-term scope 1 and 2 target covers 100.00% of the Restore PLC's scope 1 and 2 emissions in the base year of 2023, which is more than 95% threshold set by SBTi. And Restore PLC has excluded 0.00% of emissions from scope 3 inventory in 2023, which is less than 5% threshold set by SBTi. The target submission therefore complies with Criterion 5.	Compliant

OVERVIEW OF COMPLIANCE WITH SBTI CRITERIA

6. Scope 3 emissions coverage for near-term targets	Restore PLC has set 2 near-term targets over scope 3 that collectively cover 100.00% of total reported and excluded scope 3 emissions, which passes SBTi threshold of two thirds of scope 3 emissions being covered by near-term targets. Therefore submission complies with Criterion 6.	Compliant
7. Scope 3 emissions coverage for long-term targets	The proposed long-term scope 3 target covers 100.00% of Restore PLC's scope 3 emissions in the base year of 2023, which is more than the 90% threshold set by SBTi. And Restore PLC has excluded 0.00% of emissions from scope 3 inventory in 2023, which is less than the 5% threshold set by SBTi. The target submission therefore complies with Criterion 7.	Compliant

II. METHOD VALIDITY

8. Method validity	Near-term and long-term targets have been modeled using the latest version of methods and tools approved by the initiative. Therefore the submission complies with Criterion 8.	Compliant
--------------------	---	-----------

III. EMISSIONS ACCOUNTING REQUIREMENTS

9. Scope 2 accounting approach	A market-based approach is used to account for scope 2 emissions and to track performance. The target submission therefore complies with Criterion 9.	Compliant
10. Scope 3 screening	A complete screening or inventory has been carried out by Restore PLC with scope 3 GHG emissions accounting for 90.78% of the total emissions. The target submission therefore complies with Criterion 10.	Compliant

OVERVIEW OF COMPLIANCE WITH SBTI CRITERIA

11. Bioenergy accounting	Restore PLC does not have emissions from the combustion, processing and distribution phase of bioenergy or the land use emissions and removals associated with bioenergy feedstocks, and therefore Criterion 11 is not applicable.	N/A
12. Carbon credits	The submitted targets do not include carbon credits. Therefore, the target submission complies with Criterion 12.	Compliant
13. Avoided emissions	The submitted targets do not include avoided emissions. Therefore, the target submission complies with Criterion 13.	Compliant

IV. TARGET FORMULATION

14. State of net-zero emissions	Restore PLC has set 2 targets to reach a state of net-zero emissions, which involves: (a) reducing their scope 1, 2 and 3 emissions to zero or to a residual level that is consistent with reaching net-zero emissions at the global or sector level in eligible 1.5°C scenarios or sector pathways and; (b) committing to neutralize any residual emissions at the net-zero target date and any GHG emissions released into the atmosphere thereafter. Therefore, the target submission complies with Criterion 14.	Compliant
15. Net-zero target structure	Restore PLC has set both, near-term and long-term science-based emission reduction targets according to the requirements. Therefore, the target submission complies with Criterion 15.	Compliant

OVERVIEW OF COMPLIANCE WITH SBTI CRITERIA

16. Base year	Restore PLC uses base year of 2023 for both its long-term and near-term science-based targets. The base year is no earlier than 2015. Therefore, the target submission complies with Criterion 16.	Compliant
17. Target year(s)	The target year of near-term emissions reduction target(s) 2030 is between five and ten years from the submission date of March 10, 2025. The target year of net-zero and long-term targets of 2050 complies with all relevant Criteria as well, namely not being further than 2050 (or as prescribed by sector-specific requirements). Therefore the target submission complies with Criterion 17.	Compliant
18. Progress to date	The targeted near-term reduction between the base year and the most recent year leads to emissions reductions in line with a 1.5°C pathway. The target submission therefore complies with Criterion 18.	Compliant
29. Target formulation	Restore PLC has publicly set a net-zero target, that clearly and transparently communicates each of the relevant components of the target, including: the net-zero target year of 2050; magnitude of emissions reductions that will be achieved for near-term and long-term science-based targets; and the net-zero base year of 2023. The target submission therefore complies with Criterion 29.	Compliant

OVERVIEW OF COMPLIANCE WITH SBTI CRITERIA

V. AMBITION

19. Level of ambition for scope 1 and 2 targets	The proposed near- and long-term reduction in scope 1 and 2 emissions is aligned with a rate of decarbonization consistent to keep global temperature increase to 1.5°C compared to pre-industrial temperatures. The target submission therefore complies with Criterion 19.	Compliant
20. Absolute targets	Absolute long-term reductions are as ambitious as the minimum emissions reductions required to align with the SBTi's 1.5°C temperature pathways. The target submission therefore complies with Criterion 20.	Compliant
21. Intensity targets	No long-term intensity reduction targets over scope 1 and 2 were submitted. Therefore, Criterion 21 is not applicable.	N/A
22. Level of ambition for scope 3 emissions reduction targets	Restore PLC has set 2 uniquely modeled scope 3 near-term targets, all of which meet the minimum level of ambition required by relevant models. The scope 3 long-term target meets the minimum level of ambition required as well. The target submission therefore complies with Criterion 22.	Compliant
23. Supplier or customer engagement targets	The proposed supplier engagement target meets all relevant timeframe, boundary, and ambition requirements. The target submission therefore complies with Criterion 23.	Compliant

OVERVIEW OF COMPLIANCE WITH SBTI CRITERIA

24. Absolute targets (scope 3)	Absolute scope 3 targets are at least as ambitious as the minimum of the approved range of emissions scenarios consistent with the well-below 2°C goal (near-term targets), the 1.5°C goal (long-term targets), or aligned with the relevant 1.5°C sector-specific absolute pathway (long-term targets only). The target submission therefore complies with Criterion 24.	Compliant
25. Intensity targets (scope 3)	No scope 3 intensity target was submitted for validation, and therefore Criterion 25 is not applicable.	N/A
26. Combined scope targets	No combined scope 1+2+3 long-term targets were submitted, and therefore Criterion 26 is not applicable.	N/A
27. Renewable electricity	No dedicated renewable electricity targets have been submitted, and therefore Criterion 27 is not applicable.	N/A
28. Neutralization of unabated emissions to reach net-zero	Restore PLC has committed to neutralizing any residual emissions. The target submission therefore complies with Criterion 28.	Compliant
37. Fossil fuel sales or distribution	Restore PLC is not involved in the distribution of natural gas or other fossil fuel products, and therefore Criterion 37 is not applicable.	N/A

VI. SECTOR SPECIFIC GUIDANCE

35. Requirements from sector-specific guidance	Restore PLC followed relevant sector-specific guidance. The target submission therefore complies with Criterion 35.	Compliant
--	---	-----------

OVERVIEW OF COMPLIANCE WITH SBTI CRITERIA

36. Companies in the fossil fuel production business or with significant revenue from fossil fuel business lines	Restore PLC is not involved in exploration, extraction, mining and/or production of oil, natural gas, coal or other fossil fuels, nor does the company derive 50% or more of its revenue from fossil fuels. The target submission therefore complies with Criterion 36.	Compliant
--	---	-----------

VII. REPORTING AND RECALCULATION

30. Frequency	Restore PLC has committed to publicly reporting its full GHG inventory and target progress annually in a disclosed location. The target submission therefore complies with Criterion 30.	Compliant
31. Reporting completeness	Restore PLC has committed to publicly report information pertaining to progress against validated targets, including separately reporting emissions and removals in the annual GHG Inventory, as specified by current SBTi Criteria. The target submission therefore complies with Criterion 31.	Compliant
32. Mandatory target recalculation	Restore PLC agrees to review and if necessary, recalculate and revalidate its targets following the most recent criteria at a minimum of every 5 years. Restore PLC has set a 5% significance threshold for emission recalculations. The target submission therefore complies with Criterion 32.	Compliant

OVERVIEW OF COMPLIANCE WITH SBTI CRITERIA

33. Triggered target recalculation	Restore PLC has agreed that its targets shall be recalculated, as needed, to reflect significant changes that could compromise relevance and consistency of the existing target. The target submission therefore complies with Criterion 33.	Compliant
34. Target validity	Restore PLC agrees to publicly announce its targets by November, 2025. The target submission therefore complies with Criterion 34.	Compliant

COMMUNICATION OF YOUR TARGETS

Consult the [SBTi communications pack](#) for information on publicly announcing your approved target(s). Your approved target wording and temperature alignment will be published on the [SBTi website](#) on the first the first Thursday following 23rd of June, 2025.

To request a different publication date, contact the SBTi team at targetdashboard@sbtiservices.com no later four business days before your scheduled publication. Please note that target publications can only be made on Thursdays. The SBTi requires approved target(s) to be published within six months from the date of target validation.

To request an update to your account information such as organization name, sector or LEI, please submit (or resubmit) a registration with the correct information through [the SBTi Services Validation Portal](#).

[Use this form](#) to request a correction or update to any published commitment or target data within our [Target Dashboard](#) which is incomplete or inaccurate.

 [@ScienceTargets](#)

 [/science-based-targets](#)

 sciencebasedtargets.org/newsletter

MANDATORY REPORTING OF PROGRESS AGAINST TARGETS

To ensure maximum transparency, accountability, and corporate leadership, Restore PLC must publicly report the progress against any published targets on an annual basis along with your company-wide GHG emissions inventory as per criterion 25 of the [SBTi Criteria and Recommendations \(version 5.2\)](#).

When reporting progress against approved targets companies should disclose the following elements:

- Target description following the exact SBTi-aligned wording including target information such as the target type, coverage, base year and target year.
- Target progress from the target base year to the reporting year in terms of emissions reductions, share of renewable electricity, or supplier/ customer engagement (annual breakdowns are preferable). Variability between years is expected, so it is important to show trends over multiple years.
- Details on substantial emissions variations and targets reviews following the SBTi criteria about mandatory target review and target recalculation criteria.
- Actions towards meeting the target, including information on emission reduction projects in implementation and planning phase that will contribute to the achievement of their targets.
- Full GHG emissions inventory in accordance with the GHG Protocol Corporate Standard. Companies must report all emissions scopes (1, 2 and 3) and all scope 3 categories, including those that do not fall within a target boundary.

Please consult [the Procedure for Validation of SBTi Targets](#) for more guidance.

MANDATORY TARGET REVIEW AND TARGET RECALCULATION

The IPCC special report on 1.5C highlighted the necessity to halve emissions by 2030 and to reach net-zero emissions by mid-century. Your science-based targets are a key element of your decarbonization trajectory while maximizing transparency and accountability.

In line with the SBTi Criteria, your company must review its targets against the latest criteria and guidance within five years, and if necessary, recalculate and revalidate for continued recognition by the SBTi.

The following changes should trigger a target recalculation:

- Scope 3 emissions become 40% or more of aggregated scope 1, 2 and 3 emissions.
- Emissions of exclusions in the inventory or target boundary change significantly.
- Significant changes in company structure and activities (e.g. acquisitions, divestitures, mergers, insourcing or outsourcing, shifts in goods or service offerings).
- Significant adjustments to the base year inventory or changes in data to set targets such as growth projections (e.g. discovery of significant errors or a number of cumulative errors that are collectively significant).
- Other significant changes to projections/assumptions used in setting the science-based targets.

Please consult CRITERION 26 and recommendation 11 of the [SBTi criteria and recommendations \(version 5.2\)](#), and [the Procedure for Validation of SBTi Targets](#) for further guidance.
